Crown Melbourne

Public Hospitality

Our **Green Oak Collection** represents our commitment to the environment. Crafted using recycled fabrics and polyester as well as responsibly sourced and environmentally friendly foam, ensure a less harmful impact to the earth.

Recycled Fabric

By using approximately 50% recycled yarn in the outer mattress casing, we reduce waste, improving sustainability without compromising the performance of the fabric.

Recycled Polyester

By using recycled polyester, we are reducing CO2 emissions as well as lowering energy consumption required to produce it.

Natural Wool

By using this natural and sustainable fiber, which is biodegradable, we minimise our impact and limit our carbon footprint.

Responsible Foam

All our green Oak foams are certified by GGT. By using VPF technology, we drastically reduce air emissions and eliminate volatile organic compounds.

GreenOak, the comfortable, eco-friendly mattress that won't cost the earth.

*Features may vary based on model.
